USER PERSONA

Getting Ready to Make an Informed Loan Decision

POTENTIAL LOAN CUSTOMER

Lukhona Galela

Wants to make an informed decision before beginning a formal personal-loan application.

"I want to understand what I can afford before I decide whether to apply for a personal loan."

Background

Lukhona receives a regular monthly income and is exploring whether a personal loan could fit alongside existing household commitments. Before applying, she wants to compare an estimated repayment with the income left after essential expenses and existing debt.

WORKING ASSUMPTIONS

Lukhona may prefer plain-language guidance, reviewing information at her own pace, and a clear explanation of how each figure affects the result. Validate these assumptions through user research.

01 · MOTIVATION

Goals

- Understand estimated monthly loan repayments.
- See how income, expenses, existing debt and credit profile may influence an indicative assessment.
- Know the next steps when results look favourable.
- Learn what to do when the simulator criteria are not met.

02 · BARRIERS

Pain points

- Uncertainty about affordable monthly repayments.
- Confusion about credit enquiries and their implications.
- Uncertainty about application requirements and documents.
- Little guidance after an unfavourable initial result.

03 · EXPERIENCE

Needs & expectations

- A simple interface that feels calm and easy to use.
- Clear calculations supported by plain-language explanations.
- Honest results that never promise approval.
- Practical guidance for next steps and application preparation.

DESIGN OPPORTUNITY

Build confidence, not pressure

Help Lukhona explore affordability privately and choose an appropriate next step without feeling pressured to apply.

INTENDED OUTCOMES

01 Understand the estimated monthly repayment.

02 Assess the income remaining after commitments.

03 Choose to adjust, prepare to apply, or pause.

Clarity before commitment →
